VISIONS for CUALA

- *A greater **diversity** of sponsors*

Currently, our main sponsors are law firms. On top of maintaining the cordial relationship with our past sponsors, I aspire to secure sponsorships from other sources e.g. Investment Banks, Management Consultancies.
- *Revamp CUALA website*

Employ professional web-designers to give CUALA website a brand new look with added features e.g. members log-in, events registration, alumni portal and etc.
- *Introducing more **career-related workshops***

I have already planned a training session, organized by PwC, which focuses on particular business areas e.g. M&A
- *Explore **new forms of social event** e.g. bowling*

The wine-tasting night organised this term received very positive comments from participants. Thus I aim to organize more such innovative events for members to network with each other.
- *Continuing my promise to extend **exclusive privileges** for CUALA members*

This term we have organized a dinner with conference speakers for members only. I wish to provide more such privileges for members such as networking chances with sponsors
- *Greater **connection** with other societies*

Allow access to a greater pool of resources e.g. overseas contacts which are beneficial to our annual delegation trips

I can guarantee my best for CUALA. I hope that you could give me the opportunity to continue serving you. I promise to finish the undone jobs from the previous committee and devote myself to bring CUALA to new heights --- VOTE WIDELIA!
