Praise God For His Work Here!

Give thanks that God has been doing amazing work in calling many Nigerians to follow him in the last 40 years—at the start of the 1960s less than 15% of the population were saved! Praise God that Nigerian Christians have been faithful in prayer.

War & Persecution

More than 10,000 have died in Christian-Muslim violence since 1999, mostly in the northern and central states. Religion is not the root of all of the violence—much is over land and ethnicity. Pray for peace, reconciliation and for Christians to be salt 'n' light.

Pray For The Church

Fast growth has its dangers. Pray for balanced teaching, unity and for more leaders well versed in the scriptures.

All over the world the gospel is bearing fruit and growing - Col 1:6

The Government

Thank God for the election of a committed Christian as the president of Nigeria in 1999. Pray against the culture of greed and corruption that has become so deeply engrained in the government over the last 40 years, for wisdom, integrity and strength amongst those that want to turn things round and for a change of heart in those who work against this.
